2011-2012 SES Provider Application
Questions and Answers #1
December 17, 2010

Question #1

Is it required that a provider must be a Non-profit organization with (501C) status. Or can individuals and other organizations apply?

Answer #1

A wide variety of organizations (i.e. for profit and non-profit organizations, faith-based organizations, schools or school districts, community organizations, etc.) are able to apply to become a provider. However, any individual or organization that applies to become a provider must be able to provide appropriate documentation of its legal status with regards to conducting business in Indiana (see Part Three, Section III, Question #1 of the application).
